

# Fast Track<sup>®</sup> 2+2

## Fast Track 2+2 Daylight Saving Time Instructions - 2009

- *In 2009, Daylight Saving Time begins on the second Sunday of March (March 8<sup>th</sup>) and ends on the first Sunday of November (November 1<sup>st</sup>).*
- Fast Track 2+2 Timer Firmware was designed to change Daylight Saving Time automatically on the old dates.
- Due to the change, the automatic Daylight Saving Time function must be disabled per the attached SW17-Switch 7 instructions. From this point on, the time will need to be manually adjusted per the attached Time Change instructions.
- As of February 7<sup>th</sup>, 2007, all Fast Track 2+2 Timers were shipped with SW17 – Switch 7 off, disabling the automatic Daylight Saving Time change.
- The next version of firmware released by Fast Track 2+2 will have the updated Daylight Saving Time dates and the automatic function can then be enabled on units that receive the upgrade to that version. All new units with this version will have the automatic function enabled at the factory prior to shipping. There is no estimated release date for the next version of firmware at this time.
