

WEARING THE RFT HEADSETS:

IMPORTANT!

After removing from carton, as shown in the sketch: hold wire headband in one hand and rotate ear phone housing with other to position earphone and the mic boom to wear on either left or right side of head.

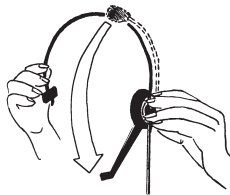

WARNING:

ALL RFT MIC BOOMS ARE NOT DESIGNED TO ROTATE IN A COMPLETE CIRCLE. DO NOT FORCE OR WARRANTY COULD BE VOIDED.

Note:

Close positioning of mic is not critical as it's sensitivity picks up the voice clearly even when two or three inches away from mouth.
